Reviews 3.4 68 Ratings keets 12/20/2014 Love it. I just wish it would work a little more. I'm trying to create a meditation session for an hour and it seems to crash my device. Maybe a more focused approach on usage would help. Can't get a refund either. edw86 5/13/2016 Finally saw the light and installed X-ThinkingRock. Read the reviews and was skeptical. But after testing it I believe X-ThinkingRock is what I need. I am using the same ideas of GTD as Doug Barry, however I find it easier. Great app! ganeshkalat 11/16/2015 I love to design and build iPhone Apps. But before starting any new project I always read the reviews of the app. I was so surprised

to read the reviews of X-ThinkingRock. I started using it and now I know the reason why it's getting so high ratings. It's awesome to use in the long run. A Google User 11/26/2014 Had a nice search of the app store but the reviews and ratings don't mean much. The app is buggy, the add on doesn't work, and one needs to pay to use it. Shawn 4/4/2016 This is such an awesome app with a simple interface
